

# PatentKeep

*for managing patent applications and enhancing client-attorney communication*

# Meet the opportunity

The initial draft of a patent application requires close collaboration between innovators and consultants

Innovators may take up to 3 months to answer

Switching from case to case while waiting for a response results in non-productive time

# Meet the concept

"I used to dread applying for a patent. With PatentKeep, I feel confident." Anonymous Start-Up CEO, Team D08  
Prototype Testing

# Meet the concept

"With the built-in add-on, I never forget to reply to my attorney!" Anonymous Start-Up Junior, Team D08 Prototype Testing

# Evaluate the concept

A familiar and intuitive interface makes the platform easy to pick up

Not relying on AI, means the only environmental impact is the small amount of energy required

PatentKeep is an easy-to-develop solution for an IT consultant

**TRY IT OUT!**
